

TOTAL ENROLLMENT

Providing one simple solution
for enrollment and billing

A Comprehensive Solution for Enrollment and Premium Billing

Many of today's enrollment and billing platforms are not all-in-one solutions. They also don't scale up or down to address all benefit election types, forcing payers to invest in multiple systems and integrations just to make it all work—and with limited automation.

VBA's solution has been designed from the ground up with a focus on providing an easy to use, single-source platform for all enrollment and premium billing needs. That's why we call it **Total Enrollment**.

Delivering More for Your Enrollment Process

• **Reduced Administrative Cost**

Eliminate paper and reduce phone calls with our benefit election portal and automated billing platform

• **Easy-to-Use Technology**

Our simple user interface reduces or eliminates the need to train users on how the system works

• **Efficient Enrollment Experience**

All aspects of the enrollment process are contained within the portal to streamline operations

• **Simplified Billing**

Say goodbye to manual processes and easily generate bills at the group, division or employee level

Streamline the Entire Enrollment Process

Total Enrollment gives employers the solution they need to meet the demands of their business.
