

# The Most Flexible Claims Administration Platform on the Market is Now the Fastest

VBA is paving the way with serverless computing that allows our clients to process claims up to 10 times faster using VBASoftware.

## Can Your Claims Administration Platform Do This?

When it comes to claims adjudication speeds, faster is better and no one does it faster than VBA. As technology continues to evolve at a rapid pace, healthcare payers need to stay on top of their game. Faster claims processing with VBASoftware and VBA Adjudicate can give you a competitive edge.

VBA Adjudicate is the claims processing engine for VBASoftware. When you choose VBASoftware, you automatically have access to this powerful technology.

### VBA Adjudicate Offers:

- ✓ High volume claims throughput
- ✓ Unlimited parallel processing power
- ✓ No degradation of system performance

*"The response we have received from our clients is overwhelmingly positive. It is a prime example of how upgrading to next-gen technology can truly change the way you do business."*

**RICH PIERCE**  
Chief Technology Officer, VBA

VBA has a longstanding partnership with Amazon Web Services (AWS) as its cloud-based technology partner. VBA leveraged AWS Lambda and other serverless technologies to eliminate the need for dedicated servers, allowing for on-demand parallel processing.

Since the scalability involved is not linear, VBA Adjudicate can handle virtually unlimited claims volume at top speeds making VBASoftware an ideal choice for healthcare payers of any size.

# Processing Speeds So Fast That Your Claims Operations Team Can Take the Night Off

Most healthcare payers have to run their large claim files overnight to avoid slowing down response times for employees who are using the claims processing system during business hours. With VBAJudicate, you can run all of your claims-related processes simultaneously with no degradation in performance.

## Benefits of VBA Software and VBAJudicate

- ✓ Expedited loading of incoming EDI claims from providers
- ✓ Faster processing and adjudication speeds for queued claims
- ✓ Improved response time for single on-demand claims processing

## Faster Processing Speeds with VBAJudicate

With VBAJudicate, you can process tens of thousands of claims in minutes instead of hours.

- ✓ Queued claims are processed up to 10 times faster
- ✓ On-demand claims are processed 7 times faster

\*Based on actual VBA client results.

## What Our Clients Are Saying About VBAJudicate

*"I was shocked when I saw the processing times for our claims files after we transitioned to VBAJudicate. Our staff has also noticed the increased speed when they manually process claims in VBA Software. The response time is beyond our expectations. VBA has created something that is truly unique in the market."*

**MICHELLE BOUNCE**  
President, JP Farley

*"In the past, we had to wait to run various claims processes into the evening and overnight. Now we can run all our claims processes simultaneously and it is completed in no time. We are so impressed by what VBA has developed. It is transforming the way we do business."*

**STEPHEN FIORINO**  
Vice President of Operations  
Custom Design Benefits

## Your Digital Transformation Starts with VBA

In today's environment, technology and infrastructure are critical for healthcare payers to achieve their business goals and support continued growth and innovation. Investing in the right technology and choosing the right partner is essential for your success.

## Get Started Today
